TRUCK & TRAILER :: AIR SYSTEM :: AIR VALVES :: HEIGHT ...

Ridewell Height Control Valve (HCV) is a mechanical device that automatically adds to, or exhausts, air from the air suspension when changes in vehicle load are detected. The HCV will respond to dynamic changes, but does so by limiting air consumption for small changes in suspension height. The HCV is available in three configurations: 1.

Height Control Valve Installation & Operations Guide

The Rapid Dump air suspension dump valve offers a simple method for quick dumping of your truck or trailer air suspension pressure. Install the Rapid Dump valve between the leveling valve and the air bags Connect the output from the leveling valve to the supply port on Rapid Dump
