Mental illness is often perceived as reflecting a failure of the entire family. In groups in which mental illness is seen as a moral weakness and both the individual and family are stigmatized, somatization of mental distress is better accepted.

Varcarois' Foundations of Psychiatric Mental Health ...
Individual factors influencing mental health include biologic makeup, autonomy, independence, self-esteem, capacity for growth, vitality, ability to find meaning in life, emotional resilience or hardness, sense of belonging, reality orientation, and coping or stress management abilities. Interpersonal factors such as intimacy and a balance of separateness and connectedness are both needed for good mental health, and therefore a healthy person would need others for companionship.

NS 835 - Foundations of Psychiatric-Mental Health. Using a theoretical approach, this foundational course provides learners with a basic understanding of the fundamental neurological concepts of common psychiatric-mental health conditions. Nurse practitioner students will have the opportunity to explore psychiatric-mental health concepts and health management strategies for diverse populations across the life span.

Varcarois' Foundations of Psychiatric-Mental Health Nursing, 8th Edition is the most comprehensive RN psychiatric nursing text on the market! Awarded second place in the 2018 AJN Book of the Year Awards in Psychiatric Mental Health Nursing category. User-friendly by design, it simplifies the often-intimidating subject of psychiatric-mental health nursing with a practical, clinical perspective. This edition was revised in conjunction with a readability expert to support clarity and ease of understanding. Chapters follow the nursing process framework and progress from theory to application, preparing your students for clinical practice with real-world examples. New to this edition are full-page illustrated explanations about the neurobiology of disorders and associated medications, criteria from the American Psychiatric Association's Diagnostic and Statistical Manual of Mental Disorders, 5th edition (DSM-5) for major disorders, completely revised Evidence-Based Practice boxes, and a fully rewritten chapter on Dying, Death, and Grieving to provide students with essential information about difficult topics. Mentor-like writing style reinforces important information and helps in applying textbook content to the clinical setting. Coverage of key topics and emerging nursing trends keep you current with best practices in the field. Considering Culture boxes discuss the importance of person-centered care in providing competent care to diverse populations in various clinical situations. Vignettes with vivid mini-stories prepare you for real-world practice with personal, descriptive characterizations of patients with specific psychiatric disorders. Health Policy Boxes introduce the role you can play in advocating for patients and the profession. Clinical chapters follow the six-step nursing process, providing consistent guidelines for comprehensive assessment and intervention. NEW! Full-page illustrated explanations about the neurobiology of disorders and associated medications. NEW! DSM-5 guidelines from the American Psychiatric Association's Diagnostic and Statistical Manual of Mental Disorders are fully incorporated in the text, and include updated NANDA content. NEW! Completely revised Evidence-Based Practice boxes. NEW! Revised chapter on Dying, Death and Grieving gives you all the vital information you need. NEW! Ten NCLEX-style questions and answers at the end of each chapter.

Rev. ed. of: Foundations of psychiatric mental health nursing / [edited by] Elizabeth M. Varcarois, Margaret Jordan Halter. 6th ed. c2010.

Accompanying CD-ROM contains ... "Test-taking strategies... Review questions" -- p. [4] of cover

Accompanying CD-ROM contains ... "review questions for the NCLEX Examination, interactive exercises, animations, and an audio glossary."--Page 4 of cover.

The revised reprint includes all new DSM-5 updates, updated psychiatric nursing content, along with new opening unit pages with vignettes, Selected Concept boxes and a new chapter on stress and stress-related disorders. This updated version equips yourself for today's psychiatric nursing practice with all of the essential nursing interventions and clinical content combined with current research and evidence-based practice. From the author of the bestselling Foundations of Psychiatric Mental Health Nursing, this text was specifically developed to effectively prepare students in today's shorter courses. New DSM-5 criteria boxes in an appendix Updated Chapters include: Chapter 17: Schizophrenia Spectrum Disorder –new material on the Recovery Model adapted for schizophrenia, new Matrix 7 domains for Cognition affected by Schizophrenia, and an updated chapter drug table which now includes the latest drugs for schizophrenia Chapter 15: Mood Disorders: Depression – the chapter drug table has been updated with the latest drugs for depression Chapter 16: Bipolar Spectrum Disorders – the medication tables have been updated throughout Chapter 11: Anxiety, Anxiety Disorders, and Obsessive-Compulsive Disorders – this chapter has been updated with new content Chapter 12: Somatoform Disorders and Dissociative Disorders – the section on somatic symptom disorder has been thoroughly revised Chapter 19: Addiction and Compulsions – this chapter has been rewritten with additions of substances, medications and new tables UNIQUE! Examining the Evidence boxes explain the reasoning behind nursing interventions and how research affects everyday practice. UNIQUE! Applying the Art sections communication tables in the clinical chapters provide examples of therapeutic and nontherapeutic communication techniques as well as realistic nurse-patient interaction scenarios. Key concepts and terms clarify essential terminology. Potential Nursing Diagnosis tables give several possible nursing diagnoses for a particular disorder along with the associated signs and symptoms. Vignettes offer succinct, real-life glimpses into clinical practice by describing patients and their psychiatric disorders. Assessment Guidelines familiarize readers with methods of assessing patients. Critical thinking questions introduce clinical situations in psychiatric nursing. Key Points to Remember outline the main concepts of each chapter in an easy to comprehend and concise bulleted list.

This text covers nursing care for the full spectrum of psychiatric disorders and psychosocial problems. This revised edition maintains the anxiety continuum framework and nursing process format of previous editions whilst incorporating chapters on psychiatric nursing - past, present and future; psychiatric nursing in the community setting; communication with families; psychobiology and mental disorders; and communication with angry and aggressive clients.

This convenient, money-saving package is a must-have for students training for a career in nursing. It includes the Foundations of Psychiatric Mental Health Nursing - Text and Virtual Clinical Excursions 3.0.

Accompanying CD-ROM has review questions for the NCLEX examination, interactive exercises, animations, and an audio glossary.
