An enjoyable read as an introduction to Freud. The author is sometimes critical of Freud's hypothesis without providing sufficient counter evidence but this is inevitable in a short introduction. Suggestions for further reading are helpful. Easy to read as an ebook.

with the hindsight of the half-century since his death, can we assess his true legacy to current thought. As an experienced psychiatrist himself, Anthony Storr offers a lucid and objective look at Freud's major theories, evaluating whether they have stood the test of time, and in the process examines Freud himself in light of his own ideas.
