Implementing an Effective CAPA System

CAPA is the heart of the quality management system. CAPA can be viewed as change control, continuous improvement, and complaint management. CAPA not only indicates an organisation's ability to respond to problems that arise but also to proactively anticipate and prevent subsequent problems from arising. This webinar highlights the various regulations governing CAPAs, how CAPAs are successfully initiated and managed, how CAPA is an integral part of the quality system, and how an effective ...
