This conference was organised by the Third World Academy of Sciences in collaboration with the Canadian International Development Agency. For the 250 female scientist participants from distant lands and diverse cultures from the Caribbean to the Far East, the conference proved a stimulating experience to recognize their strength in terms of numbers and achievements, to forge new links, nationally and internationally, and to demonstrate that science is independent of gender and is no longer an exclusively male-dominated preserve. The first part of the proceedings deals with the global, Third World and national perspectives of the theme "Women and Science" and the second highlights the scientific contributions by Third World women scientists, their personal experiences and scientific reports. The publication of these proceedings would serve as a potentially effective strategy aimed at enhancing the status of women scientists, not only in the Third World but worldwide.

Business Studies Grade 9 meets all the requirements of the Grade 9 Business Studies Syllabus. Units of work are organised according to the Grade 9 Business Studies Syllabus, namely: 9.1 Satisfying needs and wants9.2 Being a wise and responsible consumer9.3 Business communication9.4 My small business projectOption 1: Business CalculationsOption 2: Taxation

This powerful first novel chronicles the lives of two families: the first, poor, working-class and ill-educated, is compared to a young politically aware college student and her journalist fiance.

"The Education System in Malawi", an Education Country Status Report (CSR), is a detailed analysis of the current status of the education sector in Malawi, the results of which have been validated by the government of Malawi. Its main purpose is to enable decision makers to orient national policy on the basis of a factual diagnosis of the overall education sector and to provide relevant analytical information for the dialogue between the government and development partners. The analysis incorporates data and information from multiple sources, such as school administrative surveys by the Ministry of Education, household surveys, and a tracer survey created especially for this study. This CSR, developed by a multi-ministerial national team supported by UNESCO P le de Dakar, the World Bank, and GTZ specialists, updates the previous one drawn up in 2003 and consists of eight chapters, including a chapter on higher education. The analysis provides key monitoring and evaluation inputs for the overall education sector, particularly under the framework of the implementation of the National Education Sector Plan.

As the Government of Malawi investigates options to expand access to higher education and improve the quality of higher education provision, the objective of this report is to contribute to an improved understanding of the challenges confronted by the higher education sub-sector in Malawi. The report summarizes the key findings of an in-depth study of factors affecting access and equity in the Malawian higher education sub-sector, the quality and relevance of educational outputs, the financing of the sector, and the frameworks structuring governance of the sector and its management. The study was initiated in response to a request from the Government of Malawi, to the World Bank, to support the Ministry of Education, Science and Technology (MoEST) in its pursuit of financially sustainable policy options to increase equitable access to higher education, and to improve the quality of higher education provision in alignment with the needs of the labor market.
