"The Modern Middle East: A History explores how the forces associated with global modernity have shaped the social, economic, cultural, and political life in the Middle East over the course of the past 500 years" --

This hugely successful, ground-breaking book is the first introductory textbook on the Modern Middle East to foreground the urban, rural, cultural and women's histories of the region over its political and economic history. Ilan Pappé begins his narrative at the end of the First World War with the Ottoman heritage, and concludes at the present day with the political discourse of Islam. Providing full geographical coverage of the region, The Modern Middle East: opens with a carefully argued introduction which outlines the methodology used in the textbook provides a thematic and comparative approach to the region, helping students to see the peoples of the Middle East and the developments that affect their lives as part of a larger world includes insights gained from new historiographical trends and a critical approach to conventional state- and nation-centred historiographies includes case studies, debates, maps, photos, an up-to-date bibliography and a glossarial index. This second edition has been brought right up to date with recent events, and includes a new chapter on the media revolution and the effect of media globalization on the Middle East, and a revised and expanded discussion on modern Iranian history.

The Modern Middle East is a themed collection of translated sources covering official and private archives, the periodical press, memoirs, western journalists' and travellers' accounts, literature, and official reports. Each document is presented and put in its historical context by an expert, providing a highly useful resource for the study of the Middle East from 1700 to the present day.

A History of the Modern Middle East offers a comprehensive assessment of the region, stretching from the fourteenth century and the founding of the Ottoman and Safavid empires through to the present-day protests and upheavals. The textbook focuses on Turkey, Iran, and the Arab countries of the Middle East, as well as areas often left out of Middle East history—such as the Balkans and the changing roles that Western forces have played in the region for centuries—to discuss the larger contexts and influences on the region's cultural and political development. Enriched by the perspectives of workers and professionals; urban merchants and provincial notables; slaves, students, women, and peasants, as well as political leaders, the book maps the complex social interrelationships and provides a pivotal understanding of the shifting shapes of governance and trajectories of social change in the Middle East. Extensively illustrated with drawings, photographs, and maps, this text skillfully integrates a diverse range of actors and influences to construct a narrative that is at once sophisticated and lucid. A History of the Modern Middle East highlights the region's complexity and variation, countering easy assumptions about the Middle East, those who governed, and those they governed—the rulers, rebels, and rogues who shaped a region.

A century ago, as World War I got underway, the Middle East was dominated, as it had been for centuries, by the Ottoman Empire. But by 1923, its political shape had changed beyond recognition, as the collapse of the Ottoman Empire and the insistent claims of Arab and Turkish nationalism and Zionism led to a redrawing of borders and shuffling of alliances—a transformation whose consequences are still felt today. This fully revised and updated second edition of Making the Modern Middle East traces those changes and the ensuing history of the region through the rest of the twentieth century and on to the present. Focusing in particular on three leaders—Emir Feisal, Mustafa Kemal, and Chaim Weizmann—the book offers a clear, authoritative account of the region seen from a transnational perspective, one that enables readers to understand its complex history and the way it affects present-day events.

A History of the Modern Middle East examines the profound and often dramatic transformations of the region in the past two centuries, from the Ottoman and Egyptian reforms, through the challenge of Western imperialism, to the impact of US foreign policies. Built around a framework of political history, while also carefully integrating social, cultural, and economic developments, this expertly crafted account provides readers with the most comprehensive, balanced and penetrating analysis of the modern Middle East. The sixth edition has been revised to provide a thorough account of the major developments since 2012, including the tumultuous aftermath of the Arab uprisings, the sectarian conflict in Iraq and civil war in Syria that led to the rise of ISIS, the crises in Libya and Yemen, and the United States' nuclear talks with Iran. With brand-new timelines in each part, updated select bibliographies, and expanded online instructor resources, A History of the Modern Middle East remains the quintessential text for courses on Middle East history.

Many students learn about the Middle East through a sprinkling of information and generalizations deriving largely from media treatments of current events. This scattershot approach can propagate bias and misconceptions that inhibit students' abilities to examine this vitally important part of the world. Understanding and Teaching the Modern Middle East moves away from the Orientalist frameworks that have dominated the West's understanding of the region, offering a range of fresh interpretations and approaches for teachers. The volume brings together experts on the rich intellectual, cultural, social, and political

history of the Middle East, providing necessary historical context to familiarize teachers with the latest scholarship. Each chapter includes easy-to-explore sources to supplement any curriculum, focusing on valuable and controversial themes that may prove pedagogically challenging, including colonization and decolonization, the 1979 Iranian revolution, and the US-led "war on terror." By presenting multiple viewpoints, the book will function as a springboard for instructors hoping to encourage students to negotiate the various contradictions in historical study.

Until the 1993 first edition of this book, one thing had been missing in Middle Eastern history—depiction of the lives of ordinary Middle Eastern men and women, peasants, villagers, pastoralists, and urbanites. Now updated and revised, the second edition has added six new portraits of individuals set in the contemporary period. It features twenty-four brief biographies drawn from throughout the Middle East—from Morocco to Afghanistan—in which the reader is provided with vantage points from which to understand modern Middle Eastern history "from the bottom up." Spanning the past 160-plus years and reflecting important transformations, these stories challenge elite-centered accounts of what has occurred in the Middle East and illuminate the previously hidden corners of a largely unrecorded world.

Combining elements of comparative politics with a country-by-country analysis, author David S. Sorenson provides a complete and accessible introduction to the modern Middle East. With an emphasis on the politics of the region, the text also dedicates chapters specifically to the history, religions, and economies of countries in the Persian (Arabian) Gulf, the Eastern Mediterranean, and North Africa. In each country chapter, a brief political history is followed by discussions of democratization, religious politics, women's issues, civil society, economic development, privatization, and foreign relations. In this updated and revised second edition, An Introduction to the Modern Middle East includes new material on the Arab Spring, the changes in Turkish politics, the Iranian nuclear issues, and the latest efforts to resolve the Israeli-Palestinian dilemma. Introductory chapters provide an important thematic overview for each of the book's individual country chapters and short vignettes throughout the book offer readers a chance for personal reflection.
